## About

Big fan of Linux, Docker, Open Source and automation. Looking every day for new frameworks, tools, etc... Continuous Improvement is my life. Quality, Customer Intimacy, Knowledge Sharing, Openness and being Respectful to others is what I follow every day.
**One sentence**: Just inject the coffee into my jugular vein! ☕

## Latest Achievements

| | |
|---|---|
| ⚛️ | Refactored my portfolio achievements into a paginated list using Material-UI allowing to store as many as needed. 🏆 |
| {...} | Refactored the StackState Demo Environment by automating the setup using Groovy, JSON, Handlebars, Docker, k8s, etc... (Private repo) ✨ |
| 🐙 | Fixed the base64 encoding for the gcloud token in the gcloud GitHub Action. 🎬 |
| 🐍 | Working on a nginx topology visualization using crossplane and visualizing it in StackState, using an agent check. ✈️ |
| ⚛️ | Learning react by creating an electron app that is aiming at visualizing k8s resources (early stages). See kuis. 🥟 |

## Coding

### HackerRank (Jul '20)

| | |
|---|---|
| Problem Solving | Silver Level - 3 star |
| ☕ | Gold level - 5 star |
| 🐍 | Gold level - 5 star |
| SQL | Silver level - 3 star |
| ⚛️ | Rank 1 |
| #! | Rank 6015 |

| | |
|---|---|
| 📚 | Supporter, Revival, Informed and Teacher badges |

The list below is generated based on the source code repositories I'm working on and using go-enry to scan all of them:

| Language | % |
|---|---|
| 🐍 | 65.14 |
| Scala | 15.28 |
| TS | 10.97 |
| JS | 2.03 |
| ☕ | 1.41 |
